Family Medicine Forum Committee                Dr. Katherine Burleigh

Resident’s Chair                                Dr. Joanne Reid

President’s final remarks
Adjournment
National Update CFPC

• National Update 1
• National Update
President’s Report College of Family Physicians PEI Local

• Strengthening Primary Care Working Group

• Began November 2015
• Develop a 5 year primary care strategic plan
• Collaborative approach: Access, Collaboration, Partnerships, Leadership and Governance
• Family physicians, NPs, Nurses and Government.
• Includes jurisdictional scan, literature review, focus groups, analysis of current state
• Presented to government next few months
• Key messages after each meeting
• PEICFP members: opportunity to provide input
Advocacy in Family Medicine

• Issue:
  • Health PEI has decided to only offer fee-for-service to new family physicians coming to Summerside or Charlottetown.
  • Will continue to offer salary/contract models to rural physicians
  • One-size-fits-all approach to how physicians work is not a good idea
  • Discussed with CBC
President’s Report continued

• Issue:
  • Perception that new physicians to practice do not work as hard as veteran physicians
  • Reviewed in both the Guardian newspaper and CBC
  • Important to set the record straight
  • More complexity in primary care
  • Physicians work/trained to adapt to these changes
July 1, 2015 to April 30, 2016

2015-2016
Expenses to April $45,147.70

Income to April $67,796.78

Current Assets & Investments $81,620.90

Liabilities $1,523.88

Net Assets $80,097.02

“Year end is June 30, 2016”
Introduction to MainPro
CFPC Advisory Committee on Family Practice (ACFP)
Innovation in Primary Care
Huy Nguyen

- Newsletter twice a year
- Sharing of innovative ideas across Canada
- Will be 3-4 cases in the newsletter
- First theme is on integration of primary and secondary care
- Next theme will be care of unattached patients
Patients Medical Home

- www.patientsmedicalhome.ca
- Best practice guideline recently released was on Re-numeration
- Future guidelines:
  - Health literacy
  - Chronic disease management
  - Team based care
  - Roles of communities in medical practices
- Practice assessment tool
- PMH 2.0
E-panel

• Recent one on access to primary care

• Future topics:
  • Social accountability
  • Compensation
  • Medical marijuana
  • E-cigarettes
  • Universal pharmacare
Vancouver Nov 9-12 2016

Hotel and flight discount information is on the site and registration will soon be open.

Two meetings to update you on:

March 2016

we reviewed and selected the presentations that would be given at this year's FMF in Vancouver. It looks like a great program - with a good balance of current topics/issues and popular updates.

The pre-conference day for Section of Teachers/Section of Researchers has expanded and has an excellent program full day program which will include a keynote speaker for the first time.
The FMF committee was restructured and the March meeting was the first under its new regional representation design. We spent part of the meeting reviewing the processes used in the past and part creating a vision for the future. For example, we considered the current online submission process which is quite open and modifications that could be made to the form to prompt more consistent provision of reliable information upon which to judge the presentation submissions.

May 2016

- key address speakers for the FMF conference days have been confirmed and will be announced by the national college in coming promotions
- abstract presentations were reviewed
- Several questions around visioning about FMF were posed. FMF has grown - and therefore outgrown all but a few host cities (Toronto, Montreal, Quebec, Vancouver, Calgary). Is continued growth our goal? Who is our target audience? Should we be targeting NPs and other allied HCP to the FMF (a focus on family medicine/primary care vs a focus on family physician)? Is there a need for smaller, more locally accessible opportunities for FPs who aren't as central to network? Are provincial ASAs fulfilling this need? Is there a need for events around communities of practice and CME required for their maintenance?

Local college:

- I didn't recognize any names from our PEI family physicians in the presentations or in the abstracts - which was a bit disappointing. I would post to the local chapter how we can better encourage and support our local members to share their knowledge and skills at FMF on the national level.
- I am looking forward to seeing you in Vancouver in November.

- Katherine Burleigh
- Submitted June 6, 2016
New Chief Resident
- Ashley Martin will be taking over from Jaclyn O’Brien as the new Associate Chief Resident on PEI (July, 2016)

New CFPC Resident
- Steve Scales will be taking over from Joanne Reid as the new CFPC PEI Resident Representative (July, 2016)

2nd Annual Bedpan Trophy Relay
Saturday, June 18
- Running through 12 legs for a total of approx. 60km from Winslow PEI Lions Club at 9am to St. Eleanors Community Center, Summerside at 3pm
- In support of the QEH and PCH Foundations

Recruitment
- Residents were invited to meet with (now former) Health Minister Dough Currie in Nov 2015.
- Residents were invited to meet with physician recruiters from PEI and Nova Scotia.
Physician payment model changes
• Residents have expressed concern over recent unilateral changes to physician payment option for Charlottetown/Summerside, requiring mandatory FFS contracts for new physicians.
• Residents feel that continuing to offer options of payment models will ease transition to independent practice while rewarding models of practice that promote patient centered care and preventative health care.

Locums
• Graduating residents are interested in filling locum positions in Charlottetown. Charlottetown being at ‘full complement’ has meant that locum coverage for physician vacation will only be approved if it is for 3+ consecutive weeks.

De-harmonization of exams
• CFPC and LMCC II exam been de-harmonized. This has resulted in reduced exam fee and travel expense coverage for residents.
This year the First Five Years in Practice Committee changed from Regional to Provincial Representation. This was an important step in assuring that early in practice members have a voice in decision making within the College with representation from across the country.

In this process my role transitioned from Atlantic Provinces Representative to the Prince Edward Island Representative. This occurred in other areas across the Country - with regional representatives becoming the representative for their home province, and new representatives for remaining provinces were recruited.
First Five Years in Practice

The FFYFP Committee has a stream at FMF, including a popular luncheon and panel discussion. This year most of the speakers focused on discussing their leadership experiences. We are in the process of developing content for FMF for next year. Ideas are welcome.

I am currently in early stage discussions with the Medical Society about a joint event with our early career speciality colleagues with a CME component. More to come on this in the months ahead.

If you have not already joined the Provincial and National Facebook groups, please send requests so I can have you added. These serve as a good resource and networking tool with colleagues. Please do keep in mind professionalism and privacy when using these resources and know that they are monitored periodically for inappropriate content. I would be eager to hear ideas on what you would like to see from this committee, at both a Provincial and National level.
